

What you and I can do about Climate Change. Finding our role in shaping the future.

Spring 2025
March 5th

Becoming Climate Resilient

Strategies for adapting to the impacts of Climate Change and daring to think we can thrive!

For years, 'Climate Action' has meant focusing on reducing or sequestering Greenhouse Gas (CO₂e) emissions (mitigation), to hopefully slow or reverse global warming. Examples include shifting to renewable energy and zero emission (electric) vehicles. Meanwhile, the impacts of climate change, including increased wildfires and flooding, are encouraging us to learn ways to adapt to these changes. Can we do both?

Simone Albuquerque,
*Climate Resiliency Analyst
for Sonoma County.*

At this Carbon Conversation, we'll share and discuss:

- What is the difference between Climate Adaptation vs. Mitigation strategies
- Examples of doing both (Resiliency & mitigation)
- Highlights from the recently published Sonoma County Comprehensive Climate Resilience Plan and examples of progress.

Audience: Community, Teachers, Students, Everyone.

Date: **Wednesday** March 5th

Time: mix and meet starts at 6:30 pm.

Program starts at 7pm.

Location:

Sebastopol Grange. 6000
Sebastopol Ave, Hwy 12

Cost: FREE. Donations Welcome.

Registration is required. See weblink below.

Organizers: The Rahun Institute, Sebastopol Grange

Register at www.rahus.org/scc

Sebastopol Carbon Conversations is organized by [The Rahun Institute](http://TheRahunInstitute.org) and hosted by the [Sebastopol Grange](http://SebastopolGrange.org). The series takes a closer look at the many solutions for reversing global warming as presented in [Project Drawdown](http://ProjectDrawdown.org) and other sources. We'll learn from local organizations that are working on Climate solutions in agriculture, renewable energy, reducing waste, empowering women, transportation, building design, carbon sequestration, and more. Through this exploration, we'll discover where we each can take small to large steps and help shape a better future.
